Synesthesia is the transformation of one sensory experience to another. In this project, you will listen to music and transform the experience of the music into drawings.

Listen to the music. Transform the musical experience into black and white drawings. Explore and experiment with tools and materials in your Art Kit.

Homework due Friday, 9/7

Choose 2 new, very distinct, non-lyric pieces of music. Make 2 new drawings. The resulting 2 drawings will clearly demonstrate very different musical experiences and compositions. Pin up all 5 drawings prior to the start of class on Friday. Bring scissors, tape, and push pins (in your Art Kit).
